

MICHIGAN *Good News*

a monthly update brought to you by the Michigan Economic Development Corporation
October 2009

Dear Friends,

It seems every month we receive good news on the alternative energy front. September was no exception. Two start-up alternative energy companies, Clairvoyant Solar and Xtreme Power, are partnering with Ford to transform the former Wixom Assembly plant into a \$725-million renewable energy park. Xtreme Power builds large-scale battery systems for storing renewable power for utilities, wind farms and manufacturers. Clairvoyant Energy makes solar panels and solar power stations. Combined, the companies expect to provide up to 4,000 jobs on site. An estimated 10,000 supplier and indirect jobs will be created as well.

The Wixom project, which got a boost when the Michigan Legislature passed and Governor Granholm signed Michigan's photovoltaic Michigan Business Tax refundable tax credit into law, will be a prototype for future projects that transform former manufacturing plants into green manufacturing and renewable energy facilities. It is further validation that our strategy to make Michigan a center of green industrial production is working. It builds on our success in attracting advanced battery companies to the state and our efforts to support the manufacture of wind turbines, solar panels and other green products in Michigan.

This month, three company expansions and two brownfield projects representing more than 3,500 created and retained jobs and over \$26 million in new investment were announced for Michigan. They include a wind component startup, VenTower Industries, which is building a plant for the manufacture of steel support towers for wind turbine electrical generators, a new North American headquarters for Hummer in either Auburn Hills or Detroit and a new IT service center near Ann Arbor. Brownfield redevelopments in Monroe and Bay City will direct new commercial activity their way.

Details of these projects and more on the pages that follow.

A handwritten signature in black ink, appearing to read "Greg Main". The signature is fluid and cursive, with a large initial "G" and "M".

TRAVEL WRITERS VISIT MICHIGAN'S EASTERN UPPER PENINSULA

Travel Michigan, in conjunction with local convention and visitors bureaus, hosted two dozen travel journalists and editors as part of a weeklong familiarization (fam) tour designed to build interest in and publicity about Michigan travel.

Journalists from across the United States took part in a Michigan travel fam tour in the Eastern Upper Peninsula. The tour was designed to acquaint the participants with the attractions, cultural institutions and recreational opportunities available in Michigan and to generate media coverage for the state in a wide variety of travel and lifestyle publications.

Throughout the week, journalists sampled a variety of Michigan's tourism destinations and attractions including the Soo Locks Boat Tours and Dinner Cruise, Tower of History Museum and River of History Museum, Great Lakes Boat Building School and the Les Cheneaux Islands Maritime Museum in Cedarville, Great Lakes Shipwreck Museum and Whitefish Point Bird Observatory, as well as outdoor recreational activities including kayaking the Two-Hearted River, cycling on Drummond Island, hiking at Tahquamenon Falls and Pictured Rocks National Lakeshore.

Journalists on this fam tour included staff and freelance writers representing *Bass Times*, *Canoe & Kayak*, *Continental Magazine*, *Delta Sky Magazine*, *Destination Polaris* (Outdoor Channel), *Family Fun Magazine*, *Family Motor Coaching*, *Milwaukee Journal Sentinel*, *MotorHome Magazine*, *National Geographic Traveler*, *Outdoor Life*, *The Washington Post*, *Walleye In-Sider*, and *Women in the Outdoors*.

GOLFWORLD READERS SELECT MICHIGAN AND ITS COURSES AMONG THE BEST

Michigan has been voted the country's 11th best golf destination by readers of *GolfWorld* magazine.

In the public course category, Forest Dunes Golf Club in Roscommon is the most popular course in the country according to *GolfWorld* readers. Just down the list, *GolfWorld* readers chose the dramatic Arcadia Bluffs Golf Course as the 16th most popular public course. Cedar Chase Golf Course in Cedar Springs is ranked 23rd; Eagle Eye Golf Course in East Lansing is 27th; Bucks Run Golf Course in Mt. Pleasant is 30th; Pilgrim's Run Golf Course in Pierson is 31st; and Shepherds Hollow Golf Course in Clarkston is tied for 49th.

The Resorts of Tullymore in Stanwood, which include the Tullymore and St. Ives Golf Courses, have the highest resort ranking for Michigan at 27th. Treetops in Gaylord which has courses designed by Robert Trent Jones, Rick Smith and Tom Fazio is ranked 32nd, Bay Harbor is ranked 38th with its Lake Michigan bordered course designed by Art Hills, Grand Traverse Resort and Spa near Traverse City is 45th featuring courses designed by Jack Nicklaus, Gary Player and Bill Newcomb. Boyne Highlands Resort in Harbor Springs received a very high rating just outside of the top 50.

Two of Michigan's most noteworthy private courses ranked high among raters as well. Oakland Hills Country Club in Bloomfield Hills tied for 27th and Crystal Downs in Beulah also received high marks.

The Reader's Choice Awards are based solely on the input of *GolfWorld* readers. More than 46,000 votes and 600,000 criteria evaluations led to *GolfWorld's* Readers' Choice selections. The categories are public, private and resort courses.

In other news...

NEW SIGNS WELCOME TRAVELERS TO PURE MICHIGAN

Travelers to Michigan will now be welcomed by **new Pure Michigan signs**. The Michigan Department of Transportation has replaced the Welcome to Michigan signs with the new Pure Michigan logo signs reinforcing the Pure Michigan brand.

ADS PROMOTE FALL TRAVEL

New television and radio commercials, part of the Pure Michigan tourism campaign, are currently airing in Chicago as well as many Michigan markets including Detroit, Grand Rapids, Flint and Lansing.

Building on the successful summer and the national debut of the Pure Michigan campaign, the **fall ads**

promote the entire state of Michigan as a fall vacation destination. In addition to the statewide campaign, several tourism industry partners are participating in Travel Michigan partnership programs including Out-of-State Advertising, In-State Advertising and Pay-Per-Click. This fall, Beachtowns, Grand Rapids, Upper Peninsula Great Waters and North Coast are the Pure Michigan marketing partners, and a part of the program that has brought in more than 23 partners throughout the year and generated \$1.7 million in private sector funds for the 2009 Pure Michigan campaign.

Travel Michigan, a division of the Michigan Economic Development Corporation, is the state of Michigan's official agency for the promotion of tourism. Travel Michigan markets the state's tourism industry and provides valuable visitor information services. For Michigan travel and golf news, go to www.michigan.org.

FORMER WIXOM ASSEMBLY PLANT TO GET NEW LIFE AS RENEWABLE ENERGY PARK

Xtreme Power of Austin, Texas, and Clairvoyant Energy of Santa Barbara, Calif., are transforming the idled Wixom Assembly Plant into **one of the nation's largest renewable energy manufacturing parks.**

Clairvoyant Energy and Xtreme Power plan an initial investment of more than \$725 million to redevelop the 320-acre plant site and its 4.7 million square feet of building space to manufacture solar power and energy storage systems, respectively. The two companies will utilize approximately half of the square footage to manufacture their products, and will seek additional green-energy manufacturing and support companies to lease the remaining space. The redevelopment work at the Wixom site is expected to begin early next year with manufacturing at the site slated to begin in late 2011.

The redevelopment plan is expected to create more than 4,000 direct jobs, including local suppliers, as well as support thousands of indirect jobs.

Ford has been working with the developers and state and local officials over the past nine months on a high-impact, environmentally responsible redevelopment plan for the 52-year-old auto plant that has produced such iconic vehicles as the Ford Thunderbird, Ford GT and Lincoln Continental.

Xtreme Power will renovate over 1 million square feet of the Wixom site to manufacture large-scale power systems that store renewable energy such as solar and wind power and redeliver that power when needed. Once completed, Xtreme Power will produce turn-key power systems, which will support up to 10,000 megawatts of wind and solar power projects around the world. Xtreme Power systems enable high-penetration rates of renewable power onto the grid and will be a critical component of the 21st century power infrastructure.

Clairvoyant Energy will redevelop a portion of the site to build state-of-the-art, high-efficiency solar panels. Clairvoyant Energy, which has developed solar-power park operations in California and Spain, is developing similar solar photovoltaic systems throughout the world. Once completed, Clairvoyant will have the capacity to produce more than 2.5 million solar panels a year at the Wixom site, potentially replacing the need for one large coal plant every year.

Oerlikon Solar USA, Clairvoyant's technology partner and a leader in thin-film solar manufacturing technology, also announced today it will establish a new regional office at the Wixom site as part of the new renewable energy park.

MICHIGAN SUPPLIER DIVERSIFICATION FUND HELPING TWO COMPANIES EXPAND, CREATE NEW JOBS

The Michigan Supplier Diversification Fund will help two companies—Maverick Industries Inc. and Wolverine Metal Stamping Inc.—**expand operations and create jobs**. The program addresses the current lack of bank financing available to companies that are attempting to diversify.

The fund is a multi-faceted initiative designed to help Michigan manufacturers and auto suppliers diversify into new emerging sectors. The two companies will receive assistance through the Collateral Support Program that was recently launched under the Michigan Supplier Diversification Fund. The program addresses the shortage of bank financing available to companies that are attempting to diversify. Under the program, the Michigan Economic Development Corporation (MEDC) was able to partner with the companies, U.S. Small Business Administration, Michigan Certified Development Corporation and banks to provide the necessary liquidity to ensure the company could purchase fixed assets and expand its working capital as follows:

- Maverick Industries Inc. will design and manufacture environmentally friendly packaging. MBC Loans LLC plans to fast-track a loan for approximately \$4 million for the former Kaneka facility in Jackson. The Michigan Strategic Fund (MSF)-approved allocation of \$1.9 million to be used as a collateral deposit. Maverick Industries also received a Michigan Economic Growth Authority (MEGA) tax credit in February to support the project valued at \$1.2 million over seven years. The project is expected to create up to 90 new direct jobs.
- St. Joseph-based Wolverine Metal Stamping Inc, a diversified metal stamping company, is pursuing opportunities in the solar-power sector, including large orders from Whirlpool and Emerson that are coming back to Michigan from Mexico and China. Omni Credit Union has agreed to fast-track a consideration of the loan request for \$2.5 million to assist in a significant expansion. The MSF approved allocation of up to \$1 million to be used as a collateral deposit. The project is expected to create up to 30 new direct jobs.

The MEDC is now accepting applications for the Michigan Loan Participation Program. Interested borrowers and lenders should contact the MEDC customer service center at 517.373.9808 for more information about how to apply.

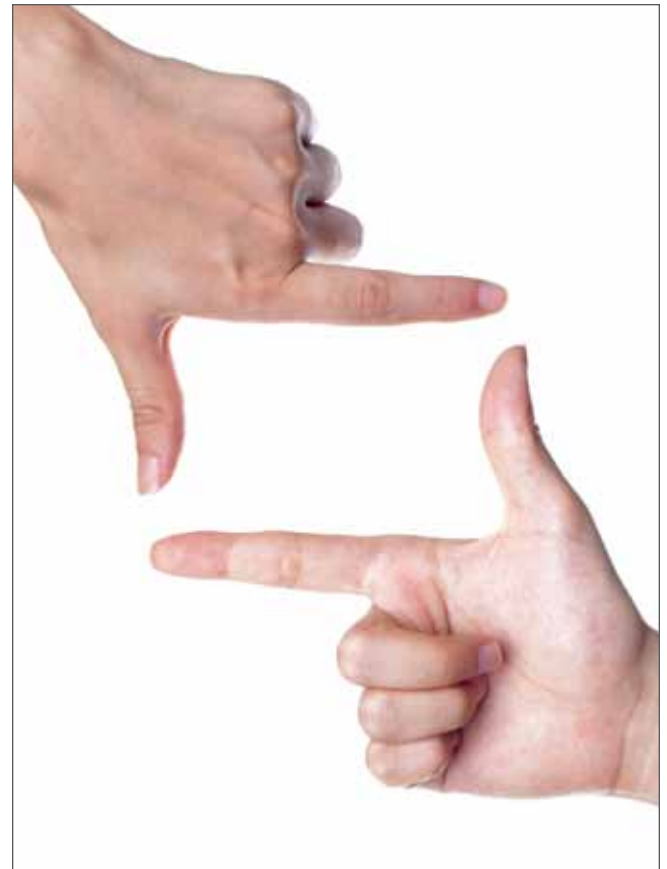

EPICENTER STUDIOS RELOCATES TO DETROIT AREA

Los Angeles-based video game developer (Real Heroes: Firefighter) is opening a second studio here, preparing to operate multiple divisions. CEO Nathaniel “Than” McClure (producer, *Call of Duty* franchise) intends to bring 2–6 staffers from Los Angeles, and add 20–25 local hires in the games division alone over the next 12–18 months.

“Many friends and associates in the industry are showing great interest in coming to Michigan as well,” McClure said. “When they see what the state has to offer, be it home values or school systems, or the four seasons, it’s basically a no-brainer. **We’re excited as hell to be part of this new vibrant and creative community.**”

Two projects incorporating a multi-million dollar budget would be immediately commenced once the company opens its doors, scheduled for this fall. He is currently in final stages of securing office/production space for the operation in the metro Detroit area.

Other divisions include film and television, requiring another 15 local hires, all full-time, year round employees. One feature film has been green lit already, with an intended Michigan shoot, with another one scheduled soon after, in addition to a reality television show now in advanced development.

WIND POWER COMPONENTS MANUFACTURER BUILDING NEW PLANT AT PORT OF MONROE ON LAKE ERIE

VenTower Industries, a start-up company, will utilize state and local tax capture valued at \$5.8 million to support the construction of a 103,000-square-foot facility to **manufacture steel support towers for wind turbine electrical generators**, and plans to purchase 38 acres from the Port of Monroe, Wayne County, as part of the project.

Part of a former industrial waste landfill will be redeveloped, adding significant public infrastructure to assist the Port of Monroe in improving rail and Great Lakes shipping. The project will also greatly reduce the need for wind turbine components imported from Europe and Asia. VenTower anticipates total capital investment of more than \$22 million and expects to create up to 150 new jobs.

NEW HUMMER OWNER TO ESTABLISH NORTH AMERICAN HEADQUARTERS IN MICHIGAN

The **headquarters of Hummer LLC** is expected to be located in either Detroit or Auburn Hills once sale of the General Motors division to China's Sichuan Tengzhong Heavy Industrial Machinery is completed. GM acquired the all-terrain, military-style vehicle brand from AM General in 2000. The new owner plans to invest \$9.4 million in a headquarters to coordinate global activity of all design, engineering, product planning, sales, service and marketing of all vehicle and licensed products.

The project will create 941 new jobs, including 300 directly by the company plus an additional 641 indirect jobs. State tax credits valued at \$20.6 million over 10 years helped to win the expansion for Michigan over competing sites in South Carolina, Tennessee and Louisiana.

FAST-GROWING CALIFORNIA INFO TECH FIRM CHOOSES ANN ARBOR AREA FOR ITS FIRST INVESTMENT

Systems in Motion plans to **create an information technology service company** in Pittsfield Township south of Ann Arbor that will focus on high-end business process outsourcing services. The IT service startup plans to invest \$15.7 million to establish a U.S.-based service center that can compete with IT service centers in India, China and other lower-cost destinations.

The project will create 1,901 total jobs, including 1,085 directly by the company and an additional 816 indirect jobs. State and local incentives valued at \$7.4 million over seven years helped encourage the company to expand in Michigan over a competing site in Indiana.

MANUFACTURING DIVERSIFICATION SUMMITS HELPING SUPPLIERS FIND NEW MARKETS

The MEDC partnered with the Genesee Regional Chamber of Commerce and regional economic development organizations in September for the Automotive Diversification Summit in Flint, the fourth of five summits held in Southeast Michigan. An audience of more than 100 learned about **strategies for converting capacity to advanced energy technology, medical device, aerospace and homeland security/defense manufacturing**. It was the tenth of 13 statewide summits targeting more than 2,500 companies with a goal of \$150 million in contracts, outreach to 300 companies to be serviced by industry experts and 25 companies receiving certification assistance from the Michigan Manufacturing Technology Center. The next summit on October 21 at the Harbor Holiday Inn in Muskegon will be co-hosted by Muskegon Area First; please visit this site for more information: www.muskegonareafirst.org/summit. For further information about the MEDC's diversification efforts, visit www.MichiganAdvantage.org/diversification.

Michigan's **brownfield redevelopment program** is among the most competitive in the country. Over the course of the last 10 years it has been instrumental in redeveloping over 500 sites throughout the state, generating an actual investment of \$2.5 billion. Brownfield redevelopment represents an opportunity to redesign and enhance our communities and often has a profound effect. The removal of a blighted building, increased tax revenue, job creation, downtown revitalization, or elimination of a contaminated site are all benefits communities can see through the use of this incentive. The continued investment in brownfield redevelopment will help Michigan's economic recovery and benefit our communities for years to come.

STATE, CITY OF MONROE PARTNERING TO SUPPORT NEW MEDICAL OFFICE BUILDING

State and local tax capture valued at \$193,233 will support **brownfield redevelopment of property on the Monroe/Main Street corridor**, which includes the demolition of the existing structure, site and public

infrastructure improvements and construction of a new 10,000-square-foot medical office building within the city's proposed Medical Office District. The project will generate \$2.2 million in new capital investment and is expected to create up to 10 new permanent jobs.

STATE, BAY CITY JOIN TO GIVE HISTORIC YMCA A MAKEOVER

A state **brownfield tax credit** valued at \$2.3 million will help transform the 123-year-old Bay Area YMCA into a \$21.3-million, 96,000-square-foot, LEED-certified state-of-the-art facility located downtown, across the street from City Hall. The project will create 17 total jobs. Bay City will provide infrastructure improvements, including upgrades to water lines, storm sewers and electrical lines, to support the project.

The MEDC is able to award approximately \$40 million in federal CDBG funds each year. There are 1,655 local governments within the state eligible to apply for these funds. Projects are approved contingent upon compliance with state and federal requirements.

INFRASTRUCTURE UPGRADES IN THE WORKS FOR CITY OF HARTFORD

The city of Hartford in Van Buren County will make use of a **\$289,000 grant to fund downtown infrastructure improvements**. The city will contribute \$40,000 to support the project which includes a completely reconstructed South Municipal parking lot, sewer system upgrades, an expanded sidewalk and other streetscape enhancements.

FEDS, MEDC AND VILLAGE OF LENNON PARTNER TO HELP LOCAL BUSINESS EXPAND

A CDBG grant in the amount of **\$66,680** is helping the village of Lennon in Shiawassee County make sewer system improvements to support the expansion of Alderman's Inc., a family-owned business that has sold and repaired equipment to agricultural businesses throughout Michigan since 1946. Alderman's is investing \$150,500 to expand its warehouse to include a service and repair area. The village of Lennon is contributing \$8,000 to support the project, which is expected to create four new jobs.

CARO VILLAGE DOWNTOWN GETTING A FACELIFT

A **\$260,000 CDBG grant** to the village of Caro in Tuscola County will support major renovation of three downtown public parking lots including a new storm sewer, sidewalks, lighting curbs and landscaping. The village of Caro is contributing \$195,000 to the project.

The federal Infrastructure Capacity Enhancement program, formerly known as the Public Works program, benefits cities, villages and townships where at least 51 percent of the population is comprised of low- and moderate-income residents as defined by the U.S. Department of Housing and Urban Development (HUD). Funds may be used for upgrading of existing public infrastructure systems or by adding capacity to burdened systems. To date, \$80.4 million has been awarded to communities across the state through the program.

SAVE THE DATE!

MEDC COMMUNITY ASSISTANCE TEAM (CATeam) HOSTING COMMUNITY DEVELOPMENT TRAINING WORKSHOPS IN NOVEMBER

Topics include: Downtown Development Authorities, TIF district, Community Development Block Grants, Brownfields, and more. Attendees will hear short presentations and then have the opportunity to meet one-on-one with a CAT Specialist to discuss specific projects. Dates and venues are:

Tuesday, November 3, 2009

Jackson (*specific location to be announced soon*)

Thursday, November 5, 2009

Port Huron (*specific location to be announced soon*)

Thursday, November 12, 2009

Ludington (*specific location to be announced soon*)

Thursday, November 19, 2009

Alpena (*specific location to be announced soon*)

Wednesday, December 2, 2009

South Haven (*specific location to be announced soon*)

For more information and to register, visit www.MichiganAdvantage.org/CAT.

35 MICHIGAN COMMUNITIES RECEIVE FEDERAL FUNDING FOR PUBLIC IMPROVEMENTS

More than \$18.1 million in Community Development Block Grant funding being made available through the MEDC will support public infrastructure projects in 35 communities statewide:

INFRASTRUCTURE CAPACITY ENHANCEMENT—FALL 2009

	COMMUNITY	COUNTY	CDBG AMOUNT	TOTAL MATCH	PERCENT LOW/MOD	DESCRIPTION
1	AuGres City	Arenac	\$750,000	\$83,300	74.6	Sewer and street improvements
2	Bangor City	Van Buren	\$252,000	\$28,000	60.7	Utility improvements
3	Bear Lake Village	Manistee	\$487,500	\$120,000	51.2	Water system improvements
4	Bloomington Village	Van Buren	\$478,800	\$55,000	53.2	Sewer improvements
5	Boyne City	Charlevoix	\$634,350	\$634,350	68.1	Street improvements
6	Cassopolis Village	Cass	\$549,000	\$61,000	54.3	Street improvements
7	Colon Village	St. Joseph	\$610,000	\$135,000	53.8	Wastewater system improvements
8	Crystal Falls City	Iron	\$490,500	\$87,000	58.7	Electric utility meter replacement
9	Decatur Village	Van Buren	\$227,000	\$26,000	61.0	Lift station and well improvements
10	Escanaba City	Delta	\$750,000	\$1,120,000	55.9	Street improvements
11	Farwell Village	Clare	\$492,601	\$162,499	52.9	Water, sewer, and street improvements
12	Fennville City	Allegan	\$749,690	\$748,700	55.5	Street and utility improvements
13	Gagetown Village	Tuscola	\$520,000	\$130,000	59.7	Street improvements
14	Hart City	Oceana	\$385,320	\$430,120	56.4	Street repair
15	Hartford City	Van Buren	\$483,200	\$67,800	58.1	Water improvements
16	Hematite Township	Iron	\$330,550	\$39,000	54.7	Water system improvements
17	Homer Village	Calhoun	\$674,000	\$292,420	52.0	Water system improvements
18	Hopkins Village	Allegan	\$700,000	\$300,000	58.0	Wastewater lagoon expansion
19	Hubbardston Village	Ionia	\$96,301	\$10,699	57.6	Community center boiler replacement
20	Iron River City	Iron	\$750,000	\$0	55.5	Water system improvements
21	Iron River Township	Iron	\$500,000	\$250,000	70.0	Water system improvements
22	Ishpeming City	Marquette	\$720,700	\$100,000	61.8	Water and sewer improvements
23	Lawrence Village	Van Buren	\$468,000	\$52,000	59.2	Street improvements
24	Manistique City	Schoolcraft	\$750,000	\$350,000	56.6	Sewer separation
25	Maple Rapids Village	Clinton	\$447,070	\$23,530	61.3	Sewer improvements
26	Marion Village	Osceola	\$634,370	\$90,630	52.9	Sewer improvements
27	Millington Village	Tuscola	\$428,200	\$47,200	55.0	Water and sewer improvements
28	Newberry Village	Luce	\$322,000	\$35,000	75.0	Storage tank reconditioning
29	Olivet City	Eaton	\$709,000	\$125,568	59.0	Street improvements
30	Ovid Village	Clinton	\$275,200	\$70,000	60.0	Water tower repair
31	Rosebush City	Isabella	\$464,100	\$204,900	57.0	Drain and road repair
32	Tawas City	Iosco	\$427,720	\$150,280	71.3	Pump station improvements
33	Thompsonville Village	Benzie	\$305,000	\$100,000	63.8	Street and storm sewer improvements
34	Wakefield City	Gogebic	\$745,000	\$85,000	65.6	Water improvements
35	Yale City	St. Clair	\$515,636	\$343,757	56.0	Water system improvements
	TOTAL		\$18,122,808	\$6,558,753		

CALENDAR OF EVENTS

The following list has activities conducted/sponsored by both the MEDC and local economic development partner organizations throughout the state. For more detailed information on any of these activities, please contact the MEDC at 517.373.9808, e-mail at MEDCservices@michigan.org or visit www.MichiganAdvantage.org.

OCTOBER

19-21

The Business of Plugging In Conference

Motor City Conference Center, Detroit

The Business of Plugging InSM will bring together vehicle manufacturers, suppliers, energy companies, government agencies, financiers and researchers to address the challenges of creating a clean, diversified and secure energy solution.

www.pev2009.com

20

MEGA Board Meeting

MEDC offices, Lansing

A monthly meeting of the Michigan Economic Growth Authority (MEGA) to consider awarding Michigan Business Tax (MBT) credits as incentives for job-creating business expansions in Michigan.

21

Michigan Diversification Summit

Muskegon

The MEDC and Muskegon Area First will be hosting a diversification summit for Michigan manufacturers seeking to diversify into growing manufacturing sectors.

www.muskegonareafirst.org

21

TiECon Midwest 2009

Ritz-Carlton, Dearborn

More than 1,000 participants will engage in a dynamic dialogue with entrepreneurs, venture capitalists, top industry executives and thought leaders at Michigan's largest conference on entrepreneurship.

www.tieconmidwest.org

28

MSF Board Meeting

MEDC Offices, Lansing

A monthly meeting of the Michigan Strategic Fund (MSF) to review and approve applications relative to the Private Activity Bond (PAB) program, Community Development Block Grant (CDBG) program and other relevant issues.

NOVEMBER

3-5

AWEA Small and Community Wind Conference and Exhibition

Cobo Center, Detroit

AWEA created this conference to bring together industry leaders, new entrants, project developers, economic development groups, municipalities, land owners and other allied organizations to formulate and enact growth strategies for small and mid-sized wind applications.

www.smallandcommunitywindexpo.org

4

SEIC Board Meeting

MEDC offices, Lansing

The Strategic Economic Investment and Commercialization (SEIC) board seeks to foster the growth of Michigan's high-tech economy by investing in the best research and commercialization opportunities.

10

21st Century Jobs Fund Symposium

Lansing Center, Lansing

The symposium seeks to expand entrepreneurial partnerships and activities throughout the state with panel discussions and networking opportunities with entrepreneurs, service providers, investors, universities and state and regional economic developers. The symposium will also provide vital information on tools that are instrumental for the successful commercialization of advanced technologies.

17

MEGA Board Meeting

MEDC offices, Lansing

A monthly meeting of the Michigan Economic Growth Authority (MEGA) to consider awarding Michigan Business Tax (MBT) credits as incentives for job-creating business expansions in Michigan.

18

Michigan Diversification Summit

Zeeland

The MEDC and LakeshoreAdvantage will be hosting a diversification summit for Michigan manufacturers seeking to diversify into growing manufacturing sectors.

www.lakeshoreadvantage.com

18

MSF Board Meeting

MEDC Offices, Lansing

A monthly meeting of the Michigan Strategic Fund (MSF) to review and approve applications relative to the Private Activity Bond (PAB) program, Community Development Block Grant (CDBG) program and other relevant issues.

DECEMBER

2

SEIC Board Meeting

MEDC offices, Lansing

The Strategic Economic Investment and Commercialization (SEIC) board seeks to foster the growth of Michigan's high-tech economy by investing in the best research and commercialization opportunities.

15

MEGA Board Meeting

MEDC offices, Lansing

A monthly meeting of the Michigan Economic Growth Authority (MEGA) to consider awarding Michigan Business Tax (MBT) credits as incentives for job-creating business expansions in Michigan.

16

Michigan Diversification Summit

Oakland University, Rochester Hills

The MEDC and Oakland University will be hosting a diversification summit for Michigan manufacturers seeking to diversify into growing manufacturing sectors.

www.OUsummit.org
